

Counselors' STEM Education Event

Wednesday, November 7, 2007

8:30 – 3:30PM

—CRESMET invites Arizona's secondary school counselors and CTE district leaders to attend an interactive workshop designed to follow-up on last year's successful 'Flat World' Conference—

Competing in a 'Flat World' Economy II: Helping AZ School Counselors Set the Course

for Student Success in STEM (Science, Technology, Engineering and Mathematics) Careers

Where: Ira A Fulton School of Engineering

Cost: \$25.00 Advance Registration Fee

A full day of speakers and interactive opportunities for using the online Virtual Counseling Center, plus special tours of ASU's acclaimed Decision Theater, PRISM Lab (Partnership for Research in Spatial Modeling) Research in Face Recognition, and CubIC (Center for Cognitive Ubiquitous Computing). Learn from faculty experts and their students what your students need to know to succeed in cutting-edge science careers and become players in this global economy.

Sponsored by CRESMET

**ASU's Center for Research on Education in Science,
Mathematics, Engineering and Technology**

Funded by a grant from the National Science Foundation

**Contact Jo Anne Vasquez jo.vasquez@asu.edu for further information or
go on-line to register at cresmet.asu.edu/gcsr**

Due to the interactive nature of this workshop enrollment will be limited.
